PROFESSIONAL SUMMARY

Computer Science engineering student and aspiring Full-Stack Software Developer with hands-on experience building business websites, e-commerce platforms, management systems, and practical software solutions. Experienced with WordPress/WooCommerce, with additional development experience in React and Java. A persistent problem solver who learns through real-world projects and enjoys debugging and building useful digital solutions.

EXPERIENCE

Freelance Web Developer 2025 – Present

- Develop business websites using WordPress and WooCommerce, adapting websites to client requirements and brand standards.
- Implement responsive designs focused on usability and cross-device compatibility.
- Work with HTML, CSS and JavaScript to customize and improve website functionality.
- Optimize website performance and SEO to improve user experience.

EDUCATION

Chandigarh University 2024 – 2028

Bachelor of Engineering in Computer Science and Engineering

Notre Dame de la Trinité 2024

Baccalaureate

PROJECTS

Restaurant E-commerce Website

WordPress · WooCommerce · WPCafe

- Developed a restaurant website featuring online food ordering and table-booking functionality.
- Configured WooCommerce and restaurant-focused plugins to support e-commerce and booking features.

MERN Stack Web Application

React · Node.js · Express.js · MongoDB

- Developed a full-stack web application with a React frontend and Node/Express backend.
- Implemented database integration and application functionality using MongoDB.

Inventory Management System

Java · JSP · Servlets · XML · Apache Tomcat

- Developed a management system for handling products and suppliers through CRUD operations.
- Implemented the application using Java-based web technologies and deployed it locally using Apache Tomcat.

Travel Agency Website

WordPress · WP Travel Engine

- Developed a travel agency website with **tour packages and booking functionality**.
- Customized the website's design, navigation, content, and plugin-based travel features.
